The Maumee River Basin Partnership of Local Governments is planning a one-day conference focused on the regional river basin and issues that affect local governments and watershed groups in the basin. We are inviting participants and vendors to this event. Vendors will be provided adequate display space in the Exhibit Area and recognition for their generous support. Please use the registration form to reserve your space as a participant and/or vendor. If an overnight stay is needed, we have reserved a block of rooms for the conference. You will need to make your own hotel reservations.

What is the Purpose of the Conference?

The conference provides an effective way of sharing information and networking among stakeholders in this large region. Break-out sessions will feature presentations and discussions on economics of municipal stormwater programs, current point and non-point source water pollution issues, water quality implementation projects, as well as representative case studies from throughout the Maumee River Basin.

Who should attend?

Federal, State, and Municipal Elected Officials, engineers, watershed groups, attorneys, and others interested in the Maumee River Basin.

Topics to be Discussed

- Funding Issues
- Green Infrastructure
- Panel Discussion with Congressional Representatives
- Water Quality and Nutrient Loading
- Economic Values of Stormwater Management
